About the Program

The Business Administration - Leadership & Management program is accredited by AACSB-International, the premier accrediting body of business school programs. AACSB Accreditation represents the highest standard of achievement for business schools worldwide. Less than 5% of the world's 13,000 business programs have earned AACSB Accreditation.

Through the Business Excellence program, students translate their academic knowledge into value in the professional world. Students also complete a 120-hour professional internship while enrolled in the Professional Experience course.

All TU Business Administration students compete in a live Strategic Management Case Competition presented by local companies during the required upper-level MNGT 481 Strategic Management course. Teams tackle a real business case provided by a local company, challenging students to not only think on many different levels at once but also exercise communication and presentation skills.

Students who successfully complete program requirements earn excel certification from Microsoft Office. TUNE students also have access to participate in networking opportunities, professional development events, and regional case competitions offered through the main campus in Towson. A degree in Business Administration opens the door to a wealth of job and career opportunities, not only in business but also in government and nonprofit sectors as well.

- Program advisors and admissions representatives hold regular office hours on-site.
- Select programs offer internship opportunities in the region.
- TUNE's Director of Student Services organizes diverse student life activities and events to bring the full college experience to TUNE.
