Project Management Professional (PMP®) Preparation Course

36 Hours

Course Description

The (PMP)® certification is globally recognized as the preeminent project management professional credential. This program also provides training on AGILE, the premier software tool used by industry experts to manage real-world projects Towson University's faculty developed and recently improved training course provides the training, materials, and mentorship necessary to prepare for the PMP® and/or AGILE certification exams. Course completion meets the formal educational requirement students need to sit for these exams.

Project Management Professional (PMP)®

The Project Management Professional (PMP)® certification prepares students for a career as a Project Manager, Project Associate, Project Lead or Team Lead. It covers the fields of Information Technology, Health Care, Construction, Engineering, Business and Administrative Operations. Our Project Management Professional Course introduces learners to best practices set forth by the Project Management Institute.

Upon enrollment, each student will receive a digital and physical copy of the PMI Authorized PMP Exam Prep and Practice Exam courseware.
