Bait-Safe Maintenance

The university has installed in-wall "Bait-safe" stations with Glen Dining Hall surrounding the dish room. These stations must be inspected and baited monthly as needed for rodents and insects. ~~The price to maintain these stations shall be invoiced monthly at the price provided on the bid sheet. The university may have additional Bait-Safe Maintenance locations installed in the future in other food service locations which would require monthly service at the bid price in effect at the time of installation.~~
